

Care Managers Offer Coaching and Support

Recognizing that there are times when patients and families need extra assistance with their care, Tri-County Family Medicine provides Care Managers in all of our health centers who will focus on immediate needs and coordinate follow-up services as needed.

You have been referred to a Care Manager at the request of your health care provider, **OR** because of a recent hospital stay or emergency room visit. Participating in the Care Manager Program is voluntary and is **FREE** of charge.

We look forward to working with you for your health!

What Care Managers Can Do For YOU:

- Spend time talking with you to determine your health care needs;
- Arrange for services you may need.
For example; home care nurses, physical therapy, medical equipment, Meals on Wheels;
- Support and guidance to help you manage your health needs;
- Review your medicines and teach you and/or your family about your medicines;
- Assist with getting affordable medicines;
- Talk with your doctor(s) about a plan to help you.

Get Healthy ♥ Stay Healthy

Reid Perkins, BSW, CCM Ph: 585-622-6147

Reid Perkins is an Accountable Health Partner's Social Work Care Manager, available to you as a Tri-County patient upon referral by your provider.

Her job is to support you in *your* health goals by getting to know you, helping to identify things that may be keeping you from feeling better, and connecting you with needed services, such as help at home, rides to appointment and getting medications, just to name a few.
